

Says

What have we heard them say?
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

AKASH A
Medical clinic

Many medical clinics focus mainly on providing primary care services. However, some types of clinics do focus on specific areas of medicine.

A medical clinic is a type of facility that's focused on outpatient services. Being an outpatient means that you can go home after you receive care.

routine medical care

preventive care

medical attention when you're sick

The prepares learners to successfully navigate complex health systems, enhance patient care, improve outcomes and work toward fulfilling the promise of the Quadruple Aim—better patient experience, better population health, lower overall costs and improved professional satisfaction.
